EXPRESSIVE ARCHITECTURE REACHES ITS PINNACLE

“Many cities are identified by their architecture and skylines, whose silhouettes give a lasting expression. OKAN Tower’s beauty and majestic form, will be instrumental in creating an image in our skyline, that will always be associated with Miami.”

— Robert Behar
Principal - Behar Font & Partners P.A.

The graceful curved apex and gently rippling glass façade of Okan Tower was inspired by the subtle beauty of a tulip blossom. An artistic nod to the national flower of Turkey, where the project’s developer is based, the tulip also symbolizes elegance and optimism.

Rising 70 stories, Okan Tower’s impact on the skyline is undeniable. Unobstructed views of Biscayne Bay and the city spread out in all directions, while at the same time infuse the building’s interiors with natural light.

At the ground level, the property becomes all about connection – reflecting the dynamic energy of one of the city’s most exciting emerging destinations. It is a place where ideas take root and expand to their fullest.
