# LANDMARK LUXURY IS NO LONGER BUILT ON SAND.

The moment you enter the security-gated enclosure, glide behind the 85-foot waterfall announcing your arrival, give your keys to the valet and your requests to the concierge, you know you have arrived somewhere special. A riverside parkland retreat, offering uncompromising luxury in downtown Miami.

From the triple-height lobby, attended 24/7 by uniformed staff, to the glass, biometrically-accessed elevator taking you securely to your residence, to the deep-set terrace boasting spectacular vistas: serenity, exclusivity and security define the way you live. Offering year-round boutique hotel living in one of the world's most exciting, cosmopolitan cities.

A dynamic, modern metropolis, no longer defined by palm-fringed golden sands. The exclusive boutique, the innovative design studio, the world-class art venue, symbolize today's Miami. Now this renaissance has its skyline-defining statement. A landmark building close to everything that is making Miami a world destination of commerce and culture. Riverside park, residential resort, exclusive club. Brought together in one extraordinary building. Rafael Viñoly's One River Point is destined to be metropolitan Miami's most desirable address.

BY RAFAEL VIÑOLY

One of the world's true architectural visionaries, Rafael Viñoly's buildings transcend fashion and create performative spaces. One River Point is a landmark expression of this ideal. Viñoly's resolve to transcend passing fashions is driven by a desire to make lasting contributions to the environments in which he builds. His design philosophy is, in his own words, "rooted in the development of architectural ideas that are powerful, distinctive and relevant to the specifics of both program and context." Creative consideration of aesthetic form and function, and a sensitive response to the dynamics of the setting, define the structure and the experience it brings together.

10 "Elegantly framing views of the city, the coastline and the sky, One River Point will become a new icon in Miami."

— Rafael Viñoly

"For our first project in Miami, we've achieved a special fusion of sophistication, luxury, amenities and services in a unique building that resolves the difficult proposition of giving every unit privileged views. Along with our client, KAR, we've studied dozens of alternatives to a very high degree of detail before arriving at an architectural solution that differentiates this development from everything else being done in the area. Elegantly framing views of the city, the coastline and the sky, One River Point will become a new icon in Miami and a point of reference for future developments that seek to maximize the residential offering at every price point within the luxury segment."

— Rafael Viñoly

11 "Two slender 60-story towers rise above a common podium from which a broad waterfall cascades nearly 85 feet, appearing to flow into the adjacent Miami River. The elevated amenities podium affords views across the site, unifying the development's lush, parkland setting with the waterfall and the expanded River Walk plaza that will be the focal point in the area.

Offset and perpendicular to each other, the towers are joined again at the summit by a 3-story Skybridge, creating an iconic silhouette on the downtown skyline. A vertical landmark rising out of a thriving landscape in the heart of downtown Miami, One River Point fulfills the promise of this unique location."

# ONE UNIQUE LOCATION

---

Superbly situated in the very heart of downtown, One River Point offers privileged proximity to everything that is making Miami America's most exciting city.

The year-round South Florida sunlight still graces the sun-decks, pools and private balconies. South Beach is a few minutes drive away. Yet the location, and the elegantly-appointed residences, are the ultimate expression of sophisticated urban living.

On the opposite side of the river sits Brickell City Centre, one of the country's most exciting new developments. One billion dollars of investment has created 5 million square feet of high-fashion, fine-dining and entertainment experiences. A footbridge walk away. A few minutes drive to the north is Miami's world-famous Design District. Blending haute couture with high culture, its exclusive brands, boutiques and galleries offers infinite temptation to the chic.

A few blocks further, and chic cedes to hip. The converted street art-covered warehouses of Wynwood denote Miami's coolest creative community, and one of the world's hottest contemporary art scenes. When Art Basel brings the contemporary art world to Miami every April, the galleries and private parties of Wynwood are where the hippest young talents break news, and hang out. The nightlife mecca of Miami, Arts and Entertainment District, with its hip bars and venues, is also close by. One River Point residency serves a diverse cultural cocktail, with world-class art, culture and entertainment experiences right on your doorstep.

# EFFORTLESSLY CONNECTED

One River Point is perfectly located to access Miami's most exciting cultural and lifestyle attractions, as well as major transportation links. The Metro Mover and South Miami Avenue run alongside the development. South Beach is a few minutes drive away, and Miami's International Airport can be reached in under 15 minutes by car.

# TROPICAL TRANQUILITY

Set in parkland enclosed by the river's edge, this tranquil riverside sanctuary is both counterpoint and complement to the buzz of the city beyond.

16

Expansive space opens up, as the deep-set riverfront promenade meets the river's natural corridor. Water defines the environment and experience. The dramatic 85-foot cascading waterfall joins a reflecting pool below with infinity pool above, and achieves a perfect elemental harmony with the riverside setting. Reflecting pools and interactive water features enhance the cool, natural serenity of this unique urban retreat.

Natural stone paving fringed with native palm planters create shady pockets of calm. Foliage tempers the gleaming glass façade by day, and jasmine scents the softly lit terraces by night. A linear landscaped sculpture

park, framing the western aisle of the enclosure, blends art and nature in perfect harmony with the environment. These cultivated green spaces skillfully balance the lush tropical ambience of South Florida with clean, uncluttered design.

Stroll the Miami Riverwalk, a family friendly, linear parkway connecting downtown with the bay. Escape up river by boat to the bars and restaurants of Miami's burgeoning Riviera, or further still, when the ocean calls. Biscayne Bay and the Atlantic are accessible directly from the private riverfront dock, with the Bahamas less than two hours away.

17

"The experience will evoke quality, luxury and sophistication. It will conjure the tropics and capture the essence of Miami... as well as creating an environment that expresses the distinctly riverside character of the setting."

— Isabel Zempel (Sasaki Associates)

Twelve-foot-deep, glass-enclosed terraces extend the living space, enabling all-year outdoor living. Each space is distributed and carefully choreographed to blur the division between inside and outside living.

Residences have been designed, appointed and finished by Rafael Viñoly Architects to harmonize with the building's structure and aesthetic. They boast luxuriously elegant bathing facilities and finishing. The seamless blending of quality natural materials, and high-technology comfort and security, makes these residences truly exceptional living spaces and homes.
